

# The Ultimate in Protective Membranes

**AFM** blue represents the ultimate in temporary peelable membranes. It provides protection to any surface it's applied to. Simply apply with a roller, brush or spray gun. To remove just peel or water jet off. Easy!

## PROTECTS AGAINST

**SCRATCHING** -  
Industrial processes; during transit & construction

**CEMENT SPATTER** -  
Incl. paint & render during construction

**CHEMICALS** -  
Acid, alkaline & solvent resistant

**DETERIORATION** -  
Anti-corrosion, prevents UV degradation

## KITCHENS

Kitchen benchtops, kickboards & delicate cupboard doors

## BATHROOMS

Bathtubs, tiles, shower screens, mirrors & vanity tops

## ARCHITECTURAL

Windows, stainless steel, plastics, ceramics, concrete & more

## more applications

Protect surrounding surfaces from such things as welding spatter, resin, paint and hot wax residue.

Cyndan **AFM** blue has been tested to withstand up to 94°C in a furnace for three hours.

On-site testing is recommended to confirm efficacy.

Protect vehicles and machinery from adhesion of contaminants such as bitumen, sewage, asphalt, concrete etc.

## more applications

Cranes, scissor lifts and elevated work platforms can be protected from dirt, pollutants, paint and other soiling with Cyndan **RPM** blue.

Cyndan **RPM** blue is electrically non-conductive.

Advanced formulation contains UV absorbers, ensures easy peelability for up to 2 years.  
Coverage: Approximately 7m<sup>2</sup>/litre.

May be applied with:

roller

spray gun

brush

## application

Before application ensure all surfaces are clean.

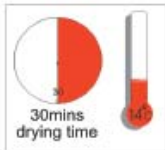

### Step 1

Using a minimum 5mm nap roller, apply **RPM** blue onto the surface ensuring a thick and even coat. A second coat may be applied if extreme protection is necessary.

### Step 2

Membrane will take approximately 30 minutes to touch dry depending on thickness. Peelability is optimum above 14°C and after 24 hours.

### Step 3

Once protection is no longer required, peel membrane from the corner or remove with a water jet. Product will roll into a small biodegradable ball. Always dispose of responsibly.

**NON-TOXIC**  
**NON-FLAMMABLE**
